

Founder of KidsDental, **Dr. Jeffrey Holt**

Dr. Jeffrey Holt is the founder of KidsDental, one of the most preferred pediatric dental practices in North Texas by children and their parents. His innovative approach has strategically changed the way children experience dentistry. As a leader in the field of pediatric and adolescent dentistry for over 20 years, Dr. Holt believes in providing a positive and exciting atmosphere with children's needs in mind and that a person's opinion of the dentist is developed at a very young age. His custom designed facilities are kid-tested and approved by patients daily.

With an emphasis on early childhood intervention, cosmetic restorative pediatric dentistry, and interceptive orthodontics, Dr. Holt and his team of experts are committed to providing the highest level of quality comprehensive dental care. His practice focuses on specialized and preventative dentistry during the growth and development years, assuring a healthy smile for life.

A native of the Dallas area, Dr. Holt enjoys boating, water sports, mountain biking, camping, traveling, and spending time with his wife and three kids.
